Subject: Letter of Attestation for CELESC

To whom it may concern,

This letter certifies that IFS Company deployed its Mobile Workforce Management (MWFM) solution to Chilquinta Energia in support of several workflows such as the smart meter exchange, vegetation management, Connect, Disconnect, and Inspection. The project included initiation, design, construction, testing, and go-live. The IFS/Clevest MWFM platform, deployed on-premises support of more than 120 field technicians and 50 office users every day using Android-based handheld devices. Chilquinta has completed close to one 200 thousand work orders through the platform to date. Clevest deployed MWFM version 7.2 interfaced to an Open Smart Flex and SAP CIS system to obtain the work order information.
